Dear M. NourbeSe Philip,

I hope this email finds you well.

Witte de With just cc'ed me in their answer to the letter of Suzanna Tamminen and I would like to let you know that I will be sending you a letter early next week with further explanation.

In the meantime, I really want to express that I in no way intended to erase you and your important and impressive work, which I deeply respect and admire. I very deeply apologize to you if anything I did gave the impression that I have done this or intended to do this.

My highest regards,

Rana
